

Nawalicki Witold, *Donors of cartographic collections to the Ossolineum Library 1817-1912*

On the basis of many sources (including the manuscript "Memoirs of Gifts", lists published in ZNiO magazines, "Reports on the activities of ZNiO"), the author reconstructed a list of 92 donors of cartographic collections (individual and collective), who provided the Institute with at least 1685 volumes of maps and atlases.
