

Ptaszyk Marian: *Notes on the history of Linde's Dictionary*

The author discusses four important issues concerning the work of S.B. Linde, on which J.M. Ossoliński collaborated. Disputes over the shape of the dictionary with supporters of the concept of O. Kopczyński's national dictionary, Linde's preparation of a bibliographic base for work on the dictionary ("Bibliotheca Polona", ms. vol. 1-22), people who collaborated with Linde on the preparation of "Dictionary" and other dictionary publications of that time.
